

Educational Software

Groovy Music

Groovy Music teaches the basics of sound, rhythm, pitch and composition using pictures and animation—progressing to the study of simple notation as well as major and minor scales. Students are guided with a simple voiceover and given opportunity to create their own music as well as carry out directed activities, so there's plenty of room for creativity. Windows XP and Mac compatible. Not Vista compatible.

Games

Hearing Music

Morton Subotnick *Ages 5 & Up*

Learn to identify different sections of music, melodic nuances and rhythmic changes while listening to songs by famous composers. Explore the elements that build music; hear musical differences in endings, repetitions and variations; compare differences in the music you hear; link musical phrases in order; match musical notation to sound clips; learn the difference between same and similar. Each game has audio instructions, three levels, and lets you track progress and manage multiple players.

CD ROM 20865900 \$39.95

Making More Music

Morton Subotnick *Ages 8 & Up*

Draw notes, experiment with different instruments and put together the components of a score. Includes instructional videos, offers more than 2 dozen instruments, and contains a virtual encyclopedia with more than 50 entries.

CD ROM 20865920 \$39.95

Making Music

Morton Subotnick *Ages 5 & Up*

Create, play and experience music making using only your mouse and imagination with this innovative software! *Making Music* presents all the components of music in such a way that children can see and hear the sounds they create.

CD ROM 20865910 \$39.95

Playing Music

Morton Subotnick *Ages 8 & Up*

Learn about tempo, dynamics and expression with games, performance videos and a glossary of music terms! Then, relate the concepts to written music by seeing the appropriate expression marks on the sheet music. Finally, create your own interpretations of classical music and see it performed by three loveable characters!

CD ROM 20865930 \$39.95

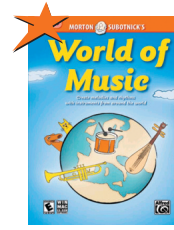

World of Music - Beginner

Morton Subotnick *Ages 4 & Up*

Use the innovative musical canvas tool to draw compositions using the sounds of four distinct regions of the world: North America, Asia, West Africa, and the Middle-East. Visualize the different elements of pitch and rhythm and explore your musical potential!

CD ROM 20865940 \$39.95

World of Music - Intermediate

Morton Subotnick *Ages 7 & Up*

Use the musical canvas tool to compose using the sounds of four regions of the world: North America, Asia, West Africa, and the Middle-East. This version provides more tools for composing, such as combining rhythm and melodies.

CD ROM 20865950 \$39.95
